**DETAILED ACTION**

**Response to Amendment**

The amendment filed on 10/10/02 has been considered. Applicant's arguments are deemed to be persuasive-in-part.

Claims 4,5, 15, 17-18, 20-27, 30-40 and 42-43 are pending.

The double patenting rejection is withdrawn in view of the abandonment of the 09/641026.

The rejections under 35 U.S.C. 112, second paragraph, are withdrawn in view of applicant's amendments.

***Information Disclosure Statement***

The information disclosure statement filed 10/24/02 fails to comply with 37 CFR 1.97(c) because it lacks a statement as specified in 37 CFR 1.97(e). It has been placed in the application file, but the information referred to therein has not been considered.

The information disclosure statement filed 10/24/02 fails to comply with 37 CFR 1.97(c) because it lacks the fee set forth in 37 CFR 1.17(p). It has been placed in the application file, but the information referred to therein has not been considered.

It is noted that applicant has cited 1.97(f) and stated that the previous attempt was a "bona fide attempt" but "inadvertent omissions were made". A complete reading of 1.97(f) states that "if a *bona fide* attempt is made to comply with 1.98, but part of the required content is inadvertently omitted..." Since neither of references cited in the

10/24/02 IDS were part of the 11/02/00 IDS and since the 11/2/00 IDS was complete, the references in the 10/24/02 are no considered as "required content".

#### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or nonobviousness.

This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to

consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

Claims 15, 4-5, 17-18, 23, 26-27, 32, 38 and 42-43 remain rejected under 35 U.S.C. 103(a) as being unpatentable over Srinivasan et al US 5066789 in view of Spector US 3976763 and Wong, Chemistry of Protein Conjugation and Cross-linking, CRC Press Inc. 1991 pp. 63-67. The reasons for this rejection are of record in paper no. 8, mailed 4/10/02.

Applicant has two main arguments. The first is that the linkers are totally different. The Schiff base allows for three substitutents and the azo linker allows for two. As disclosed in Srinivasan et al two items are linked to the linker 9see col 3 and entire reference). The second is that the azo linker is cleaveable intracellularly and that the Schiff base is not. Applicant is directed to col. 13 of Srinivasan et al (lines 48+) which clearly disclosed the intracellular release of the bound agent.

### ***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
